

QEDman Shave Sticks

Hello Charles,
Just wanted to write you in regards to your shaving sticks. I received my order early last week, by the way thank you very much for the sample of the Grapefruit & Peppermint. I love the scent and I'll be ordering it in one of my next purchases! I just wanted to write you to tell you thank you. Thank you for all of the time you obviously spent developing this product, it really must have took alot of trial & error in order to get a product this perfect, & I do mean perfect! I have been wet shaving for almost 18 years now & I have never found a product that works this well. I have several other high end English shave creams in the cabinet that I haven't even touched since I started using your shaving sticks! You should definitely be proud of yourself for putting out a product that is so much better than anything else on the market. In the past week I have used 6 different scents including the sample you sent & I didn't have a bad reaction to any of them, that's impressive for my sensitive skin. Hell, I hardly have to use aftershave anymore!(and I'm in Michigan, in December!) Anyways, I just wanted to tell you great product & great service!

Thanks again & best wishes to you & your family over the Holidays!

Best regards,

Bill

P.S

My favorite scent is the Patchouli/tea tree/& peppermint, I love the cooling feeling on my face. I was just wondering if you'll ever make a eucalyptus scent as well.
